## SUMMARY

---

Junior Full Stack Developer with 2 years of experience in JavaScript and its framework-React. Developed over 20 websites from the scratch and attracted over 30 students with clients. Seeking opportunity to upgrade both my frontend and backend skills in your organization.

## WORK EXPERIENCE

---

### MERN Stack Blog Application (MongoDB, React, Nodejs, Express, GitHub)

- Designed and build a full responsive MERN Stack application using react, hooks, custom hooks, context APIs, react-router, react Quill, CSS variable on frontend
- While using node and express, MVC pattern, authentication with JWT, MongoDB and mongoose, file upload and postman on backend
- Full CRUD functionalities

### Smartnetz Synergy Computer Institute (javascript, HTML, CSS, GitHub)

- Recreated dynamic web pages and reorganized contents of the old websites for easy accessibility
- Increase the scalability by optimizing the size of images on the website.

## PERSONAL PROJECTS

---

### Multipage Education Website March 16, 2024

- Build and deployed a full responsive multipage education website using HTML5, CSS, JavaScript.

### Tic-Tac-Toe Game

- Developed a simple application with HTML5, CSS and JavaScript.
- Ensured smooth user interface.
